EXPERIENCE

Mobile Engineer (Flutter) & Technical Product Owner

July 2025 – Present

Oakland General Trading — Sharjah, UAE

- Own the complete product lifecycle of multiple **Flutter** apps — from requirements definition, client consultations, and feature scoping through development, testing, and release to **Google Play and the App Store**.
- Act as product owner: translate business needs into user stories, prioritize the product backlog and roadmap, and align stakeholders on scope and release plans.
- Designed scalable architecture using **BLoC** and **Provider** for structured state management, improving app stability and reducing widget rebuilds by **30%**.
- Delivered **3+ apps end-to-end**, improving load times and UI smoothness via lazy loading, API caching, and widget optimization.

Flutter Developer

September 2024 – July 2025

Amanah (Canadian Startup) — Remote

- Led end-to-end Flutter development of a cross-border marketplace connecting travelers and shoppers across **10+ countries** for international item purchases.
- Built **50+ reusable UI widgets** and integrated **RESTful APIs** for real-time listings, offer creation, and secure transaction flows.
- Developed order tracking, traveler offers, and secure messaging with **Provider** state management, driving a **40% increase in user engagement** during beta testing.

Full-Stack Developer Intern

June 2023 – August 2023

Orange Telecommunications — Amman, Jordan

- Developed custom **Drupal** modules and responsive full-stack web solutions with **PHP, CSS, and JavaScript**.
- Created **RESTful APIs** using JSON and automated CSV processing to optimize data workflows.

EDUCATION

Bachelor of Science in Computer Science | Princess Sumaya University for Technology, Amman, Jordan

2024

- Relevant coursework: Object-Oriented Programming, Data Structures, Algorithms and Analysis, Web Programming.

PROJECTS

Lezof Mobile App

- Developed and launched a production **Flutter** app for a leading UAE car maintenance and tire company, serving **1,000+ users** across service workflows.
- Built real-time service tracking, in-app payments, and quotation management, reducing manual follow-ups by **40%+**.
- Integrated **Odoo REST APIs** for seamless data synchronization between mobile and backend systems.

Al Saud Real Estate App

- Built a tenant-facing **Flutter** app for a leading Sharjah real estate company, supporting **5,000+ tenants**.
- Delivered contract management, maintenance requests, and document access, cutting manual processes by **50%+**.
- Implemented property listing and visit booking modules with **Odoo** backend integration, boosting customer engagement and lead generation.

Events4U App

- Led end-to-end **Flutter MVP** development for a startup client, delivering **10+ core features** from concept to pre-production readiness.
- Built an event marketplace with discovery, booking, and checkout flows, improving user journey efficiency by **30%+** during testing.

CERTIFICATIONS

Professional Scrum Product Owner (PSPO I) — Scrum.org

Cisco Certified Network Associate (CCNA) — Cisco, 2022

SKILLS

Programming Languages: Dart, JavaScript, Python, SQL, Java, C#, C++, C
